## Fund background

UNICUSANO Global Alternative Investment Fund V.C.I.C PLC (the “Company” or the “Fund”) is established as a public company limited by shares according to article 3(2)(a) of the Companies law, Cap.113 with Registration Number HE400342 and is authorised to operate as an open-ended Alternative Investment Fund of variable capital of unlimited duration in accordance with Part II of the Alternative Investment Funds Law 124(I) of 2018 or any other law which replaces or amends it, with license number AIF40/2014, pursuant to Cyprus Securities and Exchange Commission decision taken on 14 May 2018.

The Fund's shares are not traded in a public market and it does not file its financial statements with the securities commission or any other regulatory organisation for the purpose of issuing any class of instruments in a public market.

The Fund is externally managed by Wealth Fund Services Ltd from 8 June 2020 according to the provisions of Article 6(2)(b) of the AIF Law, the external manager Wealth Fund Services Ltd has the duties and responsibilities of the external manager as per article 56(2)(c) of the AIF Law.

The Fund is addressed to retail investors and its license was activated on 25 February 2020.

The management of the Company includes as described in article 6(1)(a) of the AIF Law, portfolio management and risk management. Other administrative functions the Company’s management undertakes are described in article 6(1)(b) of the AIF Law them being legal and fund management accounting services, valuation and pricing, regulatory compliance monitoring, maintenance of unit/shareholder register, distribution of income, unit/shares issues and redemptions, contract settlements, record keeping, marketing, advice to undertakings on capital structure, industrial strategy and related matters, advice and services relating to mergers and the purchase of undertakings and other services connected to the management of the Company and the companies and other assets in which it has invested.

According to article 57(2) of the AIF Law the Company is forbidden to engage in other activities other than those described in article 6(1) of the AIF Law.

The Company intends to offer its shares to the wide public as a single type Fund.

Its main objects are set out below and it aims to invest in listed and non-listed shares/securities of mature or developing companies, real estate properties and distressed assets.

## Investment objective, strategy and policy

The investment objective of the Fund is through the collective management of its portfolio to maximize capital appreciation through the application of a diversified investment strategy, which will aim to deliver positive returns through investments mostly in non-listed shares/securities of mature or even developing and start-up companies, real estate properties and distressed assets.

Additionally, the Fund may act as a venture capitalist, investing in Small-Medium Enterprises (SMEs), either on their start-up or prior to their expansion.

Selection of investments will be based on the following but are not limited to:

- growth prospects and quality of management along with the unique or

# UNICUSANO Global Alternative Investment Fund V.C.I.C Plc

---

- differentiated offering of the Company that will provide a capital appreciation to the fund investors.

More specifically the Investments Strategies the Fund may follow (but is not obliged to cover all) are:

- **Venture Capital:** This strategy refers to investments in start-ups or companies that have no track record of sales and profitability are considered though of high risk and exceptionally high returns. The goal of the Fund will be to identify the most promising companies that will generate outsized returns that will be achieved by a successful exit by either an IPO in a regulated exchange or by the sale to another investment vehicle.
- **Growth Capital:** The Fund may invest in more mature and fast-growing companies that have a proven track record of profitability and sales and need capital injection in order to grow to the next level. This next level could be to restructure operations (market and product development) and enter new markets or finance an acquisition. Normally this kind of investment tends to entail less risk than the venture capital one but has also more moderate returns while it also tends to be a minority shareholding.
- **Mezzanine Financing:** This strategy involves both debt and equity financing with the purpose of financing a Company's expansion. Companies that take on mezzanine financing must have an established product and reputation in the industry, a history of profitability, and a viable expansion plan. This kind of investment will allow the fund to finance a Company in debt which could be converted to equity if the Company does not repay the debt in a timely manner and in full.
- **Special Situations and Distressed Assets:** These are investments in companies that find themselves in a special situation that need restructuring and turnaround and traditional banking finance may not take. Investments typically profit from a change in the Company's valuation as a result of the special situation. Examples of special situations include: a large public Company spinning off one of its smaller business units into its own public Company, tender offers, mergers and acquisitions etc.

The Fund does not have a particular target in relation to any industrial, geographic or other market sectors or specific classes of assets. Discretionary choices regarding particular investments are allowed, and the Fund does not refer to any specific benchmark. Any income arising from the Fund may be distributed or reinvested at the discretion of the directors of the Fund.

## **Allowed Investments:**

The Fund may invest in the following underlying assets:

- transferable securities
- deposits with credit institutions,
- money market instruments,
- units of collective investment undertakings (AIFs or UCITS),
- real estate and real estates related assets
- commodities

Investments in the Company do not have a guaranteed return and any past performance are not indicative or secure future returns. Additionally, the value of investments in the Company's units are subject to increase or decrease and therefore the initial investment is not guaranteed.

Risk category from a scale of 1-7 (low-high risk) we position the Fund at 6 which is above average risky
